Rack Mountable

The Switch includes rack mountable brackets for easy integrating with the server room. The comprehensive LED display provides clear traffic status of all the ports for network administrator.

Power Efficiency Green Switch

Ether-FSH24 is a Green switch with the ability to provide sufficient power according to the cable length. In addition, when a specific port is in the idle status, the switch will automatically turn off the unnecessary TX/RX circuits during the idle period. The above mentioned power saving technologies is able to reduce power consumption and further reduces user's electricity expenses.
